

# National Workshop on Open Source Library Management Software KOHA

(December 13-15, 2018)

Organized by  
**Central Library**  
and

**Centre for Advanced Software & Skill Development  
(CASSD)**

**The LNM Institute of Information Technology, Jaipur**

(Deemed-to-be-University under Section 3 of UGC Act 1956)

A Joint Venture of Lakshmi & Usha Mittal Foundation & Govt. of Rajasthan

## About The LNM Institute of Information Technology, Jaipur

The LNM Institute of Information of Technology, Jaipur is an institute of higher learning focused in selected areas of Computing, Communication, ICT, Electronics and carefully chosen traditional engineering and sciences with an innovative blend of interdisciplinary flavor and contemporary relevance included Mechanical Engineering with opportunities in the realms of Robotics, Artificial Intelligence, Data Sciences, Internet of Things, 5G and beyond.

The institute, in spite of being young (founded in 2002, jointly by the Government of Rajasthan and the Lakshmi and Usha Mittal (LUM) foundation in the public-private partnership mode) is considered as one of the best institutions in its chosen areas of higher learning, both in the state and the country. In addition to having been accredited by the NAAC as an 'A' grade institution, the LNMIIT has been ranked fairly high by many different agencies in the recent past as may be found on the institute website.

## About the Workshop

The workshop aims to provide hands-on training to library professionals by providing adequate practical knowledge which will enable the participants to automate the libraries on their own by using Koha. The workshop will also be useful to those who wish to migrate their existing data to Koha. Workshop comprises of lectures, demonstration and hands-on training using Koha software in detail. The basic purpose of this workshop is to equip participants with technical skills for automating their own libraries. The workshop also aims to provide basic knowledge and skills to participants in customizing Koha OPAC for creating, designing, conceptualizing and managing a library website.

## About Koha

### (Open Source Library Management Software)

Koha is the first Open Source Integrated Library Management System (ILMS), which includes Acquisition, Cataloguing, Circulation, and Serial Control & Online Public Access Catalogue with many more advanced features. Koha supports International library standards and protocols, which ensures interoperability between Koha & any other library management system. It supports technologies and international standards such as MARC 21, RFID, z39.50, Web 2.0 etc. The software is fully customizable and includes all modules expected in any standard library management system.

### Target Audience

Workshop is intended for Library & Information Science Professionals, Researchers & LIS Students.

### Important Dates

**Last date of Registration**

Dec 5, 2018

**Date of event**

Dec 13-15, 2018

LIMITED  
SEATS

### Registration Fees and Accommodation
